Background about BSE Institute and the course:

‘ BSE Institute is a wholly owned subsidiary of BSE Limited, Asia’s oldest and the largest exchange in the world in terms of number of stocks listed. BSE Institute inherits from BSE the knowledge and insights into the capital markets industry, garnered over the last 142 years. Thus the courses designed at BSE Institute help students in developing the required capabilities, understanding the trends and in preparing what’s around the bend in the Financial Market space.

Given the current state of the Indian economy and the booming financial sector, Financial Markets will play a pivotal role in developing India’s infrastructure and make it a global power and a services and manufacturing leader. With so many varied dimensions on the platter, market

participants need a far more sophisticated understanding of the financial risks and rewards as well as the tools to manage them. Accordingly there will be a huge growth in demand for skilled manpower in this sector who are not only able to handle current market practices efficiently but also cope with the any new innovations that take place in the future.

*The **Abridged Course in Financial Market (ACFM)** will provide the participants an unprecedented and unique opportunity to learn comprehensive, contemporary financial thinking and techniques practiced in the financial markets so that they can manage efficiently and effectively in this complex dynamic environment. The course will not only equip the students with the knowledge and intellectual ability to examine and analyse the financial markets but will also add value to the all-round development of their outlook, skills and personality.*

The curriculum is contemporary keeping in line with the industry trends and regulatory guidelines and global best practices. It's designed to keep in sync with the blended learning approach.

Our faculty and subject matter experts are hand-picked from the industry so that they can share their unique experiences and provide knowledge and insight into the functioning of the various market participants. The faculty aims to draw lessons from the current as well as historic market activities to give the students an understanding of how the market has evolved to its present day scenario and help students develop skills that will drive the future course of the financial markets.

The classroom sessions are a combination of lively case study discussions, learning through doing, presentations and theoretical learning. Simulation activities like live trading, application of technical analysis charts, simulation based portfolio management, stock market games is an integral part of the learning process where the students learn by doing in a controlled environment.

The teaching pedagogy is learner centered and participant directed and the methodology has been arrived at after intense research in the best teaching practices around the world. The right blend of theory and practice will help the student to meet the ever changing needs of the dynamic financial market and its participants.

BSE as a brand is synonymous with the capital markets in India. As such certification courses from BSE Institute has the stamp of 'quality' and therefore has universal acceptance in financial institutions, intermediaries, corporates and government agencies in the BFSI sector in India and abroad. “
