Subject: Learning 'How to Teach Online'

Dear Colleagues

We are aware of the situation we are facing, the new normal is here. Every new turn in life requires different set of skills and knowledge to handle or rather Embrace. 'Embrace' is more suitable as it requires our willingness and thus makes the transition simpler. The new normal will also make online teaching essentials, though it does have it's own pros and cons.

After reviewing various courses about 'teaching online' we are recommending following two courses. Any one of these two are mandatory to complete by all faculty on or before 30th June 2020.

1. Coursera: Learning to Teach Online

1.

The Learning to Teach Online (LTTO) MOOC will help you develop a working understanding of successful online teaching strategies that you can apply in your own practice. The course is based upon the multi award winning open educational resource developed by Dr Simon McIntyre and Karin Watson.

2. Edx: Foundations for Excellence in Teaching Online

Learn essential strategies for successful online teaching

<https://www.edx.org/course/foundations-for-excellence-in-teaching-online>

Besides these we have also arranged a session on from Dr. Aric, Univ. of Illinois. The session will be held at 5.30pm on 17th June 2020. the session will be for 2.30 hours. He shall be delivering this session with his colleague Prof. Henry Noel. Their profiles are attached for your reference.
