In reference to the feedback from users related to IT services including internet and Wi-Fi issues, we have has done all the test internally and have found that IT Infrastructure & Internet services are now quite stable & better, but we also understand as an individual you might have experienced some issues while using Wi-Fi and Internet services. So in order to work on those individual specific issues IT has taken some steps to zero down the issues and maintain a record of such event which can help us to further do some analysis and resolve issues more proactively.

Therefore, we have implemented the online **Grievance redressal / Help Desk Portal**, which can be accessed from **Moodle (Help Desk Tab)**.

So request to all of you kindly log your complaint on portal.

Need your cooperation for the smooth functioning of IT Services.

You are hereby notified to record and maintain the NAT system log parameters for a period of two years as per the latest directive and share them with Tata Communications as and when required.

Charge calculation method

- 1) For products which are charged annually -
Full year charge = Annual charges
Pro-Rata days = ((Annual charges/365) * no. of days)
 - 2) For products with other charge frequency -
Full month = (Annual charges / 12 * number of months)
Pro-Rata days = (((Annual charges/12) / number of days in the calendar month) * no. of days)
- Note : This refers to the product's charge frequency and not the customer's invoice frequency.

What is prorata?

Some products and services are billed one month in advance. If you sign up for one of these services in the middle of your billing period, your charges for that time period will be less than a full month's charge. This partial month charge is called a prorata.

What is a minimum commitment charge?

A minimum usage charge is the difference between your monthly usage guarantee, as agreed upon in your service contract, and your monthly usage. This charge will only appear on your invoice if your monthly usage falls below your monthly usage guarantee.

In addition, recurring charges will appear on Invoices as agreed upon in order form/service contract.

How do I submit a dispute?
