Organizes Online FDP on

EFFICIENT METHODS FOR WRITING RESEARCH PAPERS DEVELOPING THEORIES AND ANALYSING DATA

ABOUT THE WORKSHOP

This Faculty Development Program is being organised to give the business, teaching and research community contemporary techniques for research. The learned speakers will discuss the complexities of research and dissect the multi dimensional approaches that may be useful in both learning and research.

This program is intended to assist academics and researchers in thinking of novel methods to integrate the insights of research. The programme will provide a golden opportunity to learn uncondensed, integrated research mechanism effectively. Participants will get the benefit to understand full gamut of research methodology, theory building , data analysis and editor's view on publishing research paper.

OBJECTIVE

- To understand the importance of theory building and conceptual framework in conducting quality research.
- To help management educators seeking to strengthen their understanding of research, research methodology, and research designs.
- To acquaint academicians and research scholars with quantitative research using advanced techniques such as moderated mediation in SPSS and partial least square structural equational modeling in SmartPLS 4.0.
- The program participants will learn how to use and analyze data, which will help them in their research work.
- The program will help participants listen to editors' views on publishing and getting manuscripts accepted in top-tier journals.

FOR WHOM

This FDP is designed for academicians, research scholars, and corporates. This FDP program is the complete guide for writing quality research papers and publishing in top quality high impact journals.
